Q9

What do you think they bring to the business personally that might set them apart from others? This is the bit the judges will be reading carefully so make your nominee stand out - the more detail the better.

Clarissa is the one person within the whole DSI Group that does the most with the least recognition. She works tirelessly in the background - sometimes till the early hours of the morning as she juggles raising a family and running a business with 53 staff and 3 locations. She doesn't seek any recognition either. People tend to think that DSI is me. They're wrong. Just this last school holidays, we had some staff on leave - it was more important that Clarissa came in to work and I take care of Leon - she has become more important to DSI than me. I actually have no idea how DSI would run without her.
